Innovators speak and write in a unique language - one that is continuously evolving - and which emerges from the worlds of R and D, product design, new product development, technology transfer, consulting, academia, and startup firms. This booklet is a glossary of more than 120 terms from the distinctive language of innovation. This evolving language includes terminology from the modes of thought known as analytical, left-brain thinking and intuitive, right-brain thinking. In an innovation project, these modes are complementary. This glossary defines terms from both types of thinking. This item ships from La Vergne, TN. Paperback.
