By John L Le Conte

Forgotten Books, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****.Excerpt from The Coleoptera of Kansas and Eastern New Mexico The present memoir is intended to give a catalogue of the Coleoptera thus far known to inhabit the middle eastern portion of the great central region of temperate North America. The boundaries of the province here treated of are as follows: north by the Missouri river, east by the meridian of the mouth of the Kansas or Platte river, south by about latitude 34, and west by the main mass of the Rocky mountains. It thus includes Kansas, a portion of Nebraska, and the eastern part of New Mexico. The eastern limit of this province is well defined; the other boundaries are indefinite, since it there fades imperceptibly into other provinces of the same great zoological district. Before proceeding to consider the special material used in the preparation of this memoir, it will be proper to give a short sketch of the general results thus far obtained regarding the geographical distribution of Coleopterous insects in the territory of our republic. The whole region of the United States...
