HARMONIC MAPS AND MINIMAL IMMERSIONS WITH SYMMETRIES (AM-130), VOLUME 130: METHODS OF ORDINARY DIFFERENTIAL EQUATIONS APPLIED TO ELLIPTIC VARIATIONAL PROBLEMS. (AM-130) (PAPERBACK)

Princeton University Press, United States, 1993. Paperback Condition: New. Language: English . Brand New Book. The aim of this book is to study harmonic maps, minimal and parallel mean curvature immersions in the presence of symmetry. In several instances, the latter permits reduction of the original elliptic variational problem to the qualitative study of certain ordinary differential equations: the authors primary objective is to provide representative examples to illustrate these reduction methods and their associated analysis with geometric and topological..

Reviews

The ideal publication i possibly go through. It is amongst the most awesome publication we have study. I am just easily will get a satisfaction of studying a published publication.
