This pdf is definitely worth getting. Better then never, though i am quite late in start reading this one. It is extremely difficult to leave it before concluding, once you begin to read the book.

I felt heartily glad to hear that we were then clearing the Faranolles, and soon hurried up on deck, but we continued beating about for several hours before we made the entrance to the Bay of San Francisco. At length, however, we worked our way in between the two high bluffs, and along a strait a couple of miles wide and nearly five miles long, flanked on either side with bold broken hills passing on our right hand the rickety-looking fortifications erected by the Spaniards for the defence of the passage, but over which the Yankee stars and stripes were now floating. On leaving the strait we found ourselves on a broad sheet of rippling water looking like a great inland lake, hemmed in on all sides by lofty hills on which innumerable herds of cattle and horses were grazing, with green islands and clusters of rock rising up here and there, and a little fleet of ships riding at anchor. On our right was the town of San Francisco. I had suffered so much from the voyage, that when the anchor was let go I felt no inclination to hurry on shore. McPhail and Malcolm, however, went off, but promised to return to the ship that night. I soon after turned into my hammock, and, thanks to the stillness of the water in which we rode, slept soundly till morning. This item ships from La Vergne, TN. Paperback.
