Know someone who suspects their husband is cheating? Cynthia Collins, a housewife and mother of two, lives in a community just a few miles from Disney World. It's where people visit Florida for their dream vacation. There's nothing magical happening in Cynthia's life. Luckily for her, she befriends a mechanic at a local gas station. Rahul is from Nepal and is close to her age. The guy who brings his heritage to the station is sensitive towards her loneliness. Cynthia finds herself being attracted to the foreign man that she has been confiding in, about her husband's lacking attention at home. A flat tire will put her in a vulnerable position with the mechanic, and it doesn't involve a wrench! Cynthia doesn't realize that Rahul is depending on her just as much as she is relying on him. The vulnerable woman is beginning to have second thoughts about their relationship, and at the same time she questions her husband about his infidelity. He denies being involved with anyone and suggests that they take a family vacation. Cynthia decides to end her friendship with Rahul and focus more attention on her marriage. Upon returning home, she's torn how she is going to break it off with the mechanic. Just when she thinks she's in control of their relationship, she arrives at the station and is given a letter from Rahul via his brother. She is shocked by the man's past and who meant so much to her.
