Createspace, United States, 2014. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****.PROF. WILSON has prepared an exposition of Mendelism which will be of special interest to stock-breeders and serious students of agriculture. It is a model of clearness and directness, and bears the marks of the teacher as well as of the investigator. After explaining Mendel's experiments, his rule and his theory, the author passes to a discussion of various disturbing causes which account for abnormal distributions of characters. Thus there are cases in which the effects of the individual factors cannot be identified separately; cases of the suppression of the effect of one factor by that of another; cases of incomplete or absent dominance; cases where a factor is believed to combine indifferently with more than one other; cases where two or more factors seem to be linked together so that they are handed on from generation to generation as one; and cases in which two different factors produce a similar effect. These are some of the reasons for results which are not typically Mendelian, and they might have been added to. Thus it has been convincingly shown by Morgan and others that environmental and developmental influences may have a profound effect on the outcome of Mendelian factor-differences. Prof. Wilson goes on to illustrate the improvements which have rewarded careful experimentation, e.g. as regards yield of wheat and of milk. That Mendelian formulae can be used towards an increased production of material wealth has been proved by the results of workers like Nilsson-Ehle and Pearl, and these are but indications of what might be achieved. The average yield of wheat in Britain is about 32 bushels to the acre; it might be raised to 40 or even...
