Freight Books. Paperback. Book Condition: new. BRAND NEW, The Need for Better Regulation of Outer Space, Pippa Goldschmidt, Pippa Goldschmidt, author of the acclaimed novel *The Falling Sky*, brings together an outstanding collection of short stories on the theme of science and its impact on all our lives. In turns witty, accessible, fascinating and deeply moving, Goldschmidt demonstrates her mastery of the short form as well as her ability to draw out scientific themes with humane and compelling insight. Goldschmidt allows us to spy on Bertolt Brecht, as he rewrites his play *Life of Galileo* with Charles Laughton after the bombings of Hiroshima and Nagasaki. She introduces us to Albert Einstein as he deals with the loss of his first child, Liesel. We meet Robert Oppenheimer scheming against his tutor, Professor Patrick Blackett, at Cambridge University, having fallen in love with Blackett's wife. She tells the story of a female university student starting a love affair with her lecturer paralleled alongside the 'relationship' between Alice and Bob, two imaginary figures that symbolise the theory of relativity. Goldschmidt's scope can be epic, at other times intimate, providing a forensic examination of relationships and the forces that influence them.
