We ve all had times where we wanted to shout to heaven, God, why did you let this happen to me?! But have you ever considered that there might be a greater purpose for what you were going through? At 18 years of age Ed Meek was getting ready to graduate from high school and was planning on going to school to study engineering when he was involved in a very serious car accident. The accident left Ed with a traumatic head injury, shattered femur and loose vertebrae. During many months of rehabilitation therapy, doctors gave Ed very little hope of pursuing his dreams. But their discouragement only helped to drive Ed through numerous future trials and tribulations. Today Ed is a true Rocket Scientist and has worked as a contractor at NASA on the Orion program. But it took Ed a trip to the Emergency Room (ER) to help him to reach for the stars! This is his story. The story of hope, persistence, and following God s maze will inspire and uplift!.
