Residency (medicine)

By Lambert M. Surhone

Betascript Publishers Jan 2010, 2010. Taschenbuch. Book Condition: Neu. 220x150x8 mm. Neuware - High Quality Content by WIKIPEDIA articles! Residency is a stage of graduate medical training. A resident physician or resident (also called a registrar in the United Kingdom and several Commonwealth countries) is a person who has received a medical degree (MD, DO, MBBS, MBChB) and who practices medicine under the supervision of fully licensed physicians, usually in a hospital or clinic. A residency may follow the internship year or include the internship year as the first year of residency. The residency can also be followed by a fellowship, during which the physician is trained in a sub-specialty. Successful completion of residency training is a requirement to practice medicine in many jurisdictions. 136 pp. English.

Here is the finest publication we have read right up until now. It is actually writter in easy words instead of difficult to understand. Its been written in an remarkably easy way in fact it is only right after i finished reading this book in which basically changed me, modify the way i really believe.
