If possible, this deafness increased, so that on the 22nd no sounds were heard, and all communication had to take place in writing. On examination, on the 24th, I found that the deafness was complete; each membrana tympani was very concave and dull; the mucous membrane of the fauces was very red and thick, the tonsils and uvula much swollen. Each Eustachian tube was impervious. Upon inquiry I learnt that accidentally a part of the window had been left open during the night. The treatment recommended was the application of the solid nitrate of silver to the fauces and the orifices of the Eustachian tubes. This was done freely about eleven o'clock on the 26th. Dr. B. returned home...
