

Service-Oriented Computing

By -

Springer-Verlag Berlin and Heidelberg GmbH & Co. K. Paperback. Book Condition: New. Paperback. 737 pages. Dimensions: 9.2in. x 6.1in. x 1.0in. Welcome to the 8th International Conference on Service Oriented Computing (ICSOC 2010), held in San Francisco, December 2010. These proceedings represent high-quality research and industry papers, tutorials, demos, and posters that showcase new developments in service oriented computing and related fields. Since the first meeting in beautiful Trento in 2003, ICSOC has become the premier conference in the rapidly evolving areas of service research. While keeping its roots in scientific excellence and technical depth of service technology, ICSOC 2010 aimed to combine technical aspects of service computing with application and business-oriented aspects of service design, following the recent emergence of service science as an interdisciplinary foundation for understanding and integrating service systems. Located in the center of technology innovation, the San Francisco Bay Area, this year's ICSOC, through its Local Advisory Board, reached out to local industry and academia for keynotes and panels on current topics and to connect technical invention with commercial innovation. The Program Committee faced some tough decisions this year. We received 238 submissions, signalling a growing community of researchers and practitioners working in this multidisciplinary field. All papers were considered carefully by the Program Committee...
