Animals: Mammals, Birds, Reptiles, Amphibians, Fish, and Other Animals

By Shar Levine, Leslie Johnstone

Crabtree Publishing Co, Canada. Paperback / softback. Book Condition: new. BRAND NEW, Animals: Mammals, Birds, Reptiles, Amphibians, Fish, and Other Animals, Shar Levine, Leslie Johnstone, How in the world do you classify the more than one million species in the animal kingdom? This fact-packed book divides animals into the major phyla, including chordates, arthropods, and mollusks; the major classes, such as fish, amphibians, reptiles, birds, mammals, and insects; and by critical features, such as cell structure and the need to feed. Fascinating case histories examine the discovery of new mammal species, the need to conserve endangered species, and using natural predators to control populations and preserve species and their environments. Special sections also highlight the relationships of animals with plants (food chains), bacteria (diseases), and Archaea (non-bacterial microorganisms found in the intestines of some animals).

Reviews

I actually started out looking at this publication. it was actually writtern really perfectly and useful. Its been written in an extremely simple way and it is only soon after i finished reading through this pdf by which really modified me, change the way i really believe.

-- **Breanna Kerluke**

These kinds of ebook is the ideal book readily available. Better then never, though i am quite late in start reading this one. You may like the way the blogger publish this ebook.
