in cooperation with SCC-Vi Agroforestry

Condition: New. Publisher/Verlag: LAP Lambert Academic Publishing | in cooperation with SCC-Vi Agroforestry | Deforestation is today a worldwide problem and despite increasing efforts regarding forest management and forest conservation, the issue remains. Human activities are a major cause and forests are continuously turning into other land uses such as agriculture and pasture. Africa is a continent with fast growing population and during the last century major impacts has been seen in the African landscape. This study was conducted in..
