Educational leaders are seeing the increasing need for practical transformative models and theories to address academic, cultural, and socio-economic gaps separating learners at all levels of the educational system. *Applied Critical Leadership in Education* explores a leadership model arising from critical theory and critical pedagogy traditions that transforms status quo educational practices. Features Included: Case Studies provide examples of applied critical leadership across early childhood education, elementary school, middle school, high school, district, and higher education levels. Theory to Research Applications offer frameworks and key research complementary to cases. Checking In presents questions to the reader to respond and further engage with the chapter content.
