Mahan derived this work from his larger work on naval warfare of the colonial period. From Chapter 1 he with the issue of sea power, 1775): At the time when hostilities began between Great Britain and her American Colonies, the fact was realized generally, being evident to reason and taught by experience, that control of the water, both ocean and inland, would have a preponderant effect upon the contest. It was clear to reason, for there was a long seaboard with numerous interior navigable watercourses, and at the same time scanty and indifferent communications by land.
