Reviews

This ebook is amazing. I actually have read and i also am certain that i will going to read once more again down the road. I found out this pdf from my dad and i advised this book to discover.
(Isaiah Swaniawski)

ANALYTICAL STUDIES ON A STANDARDIZED EXTRACT OF WITHANIA SOMNIFERA L.

LAP Lambert Academic Publishing Jul 2017, 2017. Taschenbuch. Condition: Neu. Neuware - Withania somnifera Dunal (Ashwagandha) is an Indian medicinal plant with significant pharmacological properties like adaptogenic, antioxidant, hypoglycemic and anti-stroke effects. Several of its chemotypes includes NMITLI-101, NMITLI-118, NMITLI-128. The present work elaborates phytochemical and analytical studies on NMITLI118RT+ a candidate drug under the CSIR umbrella (derived from a new chemotype of *W. somnifera*). Here we report the development validation and applications of a simple, rapid and reliable isocratic HPLC method for quantification of Withanolide A in NMITLI118RT+ on a CN column utilizing gliclazide as an internal standard which could detect Withanolide A at about 3.8 min and gliclazide (internal standard) at about 4.8 min with a linearity range of 2-20 µg/mL. A second method here reports the development and validation of a simple isocratic method for simultaneous estimation of Withanolide A and Withanone (sesquiterpene lactone markers) established on a C-18; 3µ column which could detect Withanolide A and Withanone at retention times of about 20.7 min and 21.6 min respectively in the linearity range of 2-50 µg/mL for both. 52 pp. Englisch.
