Brand New Book ***** Print on Demand *****.Excerpt from In Defense of Medical Botany The design of this work is to profit the many thousand persons who are suffering from diseases of every kind, even to the advanced or chronic stage. I presume that every man, woman, and child farmer, mechanic and day laborer, as well as professional men, have a right to acquire all the knowledge it is in their power to grasp. This book is calculated for the many who are not able to obtain the important and essential medical knowledge that is necessary for the perpetuation of health, longevity, wealth, and happiness, by purchasing the regular medical text books of our classical colleges, as well as those who live in the palace and take pleasure in the barouche and phaeton. It is to teach the humble and poor, the farmer and mechanic, the merchant and his clerk, that God, in his infinite wisdom, has created and grown an herb with medicinal properties to prove a balm to every ailment that the human organization is heir to. My object is also to teach the many that a large number of these valuable herbs, roots, barks, leaves and flowers, grow within the immediate reach of those who may be unfortunate enough to need them to heal their ailments. Every person's physical organization is his own, and he has a right to understand it, and most especially hygiene and Nature's remedies that will.
