Brand New Book ***** Print on Demand *****.He was only 4 years old when I was diagnosed with Diabetes. I will never forget the day we got the news: my mother was sitting opposite the doctor and hear when in his ears I rumble a message, he said, his daughter is diabetic and insulin FOREVER should apply, my mother burst into tears and I watching almost without realizing that whole scene meant his chair closer to me and said do not worry mommy because I would never cry for an injection. That was the beginning of the condition. Since then we began a process of negation, reconciliation and acceptance of such diabetes and recognized worldwide. As I got older I became interested in the progress about diabetes, alternatives to improve the quality of life and emotional understanding of it. I discovered a method that would change my life and possibly thousands of diabetics, so you have diabetes and live life intensely as others do naturally. Thus, once thought, after doing my usual diet, continuous exercise, to apply day after insulin day and read and read more and more about it, decided to create a tutorial, in other words a manual comprising management comprehensive and integrated diabetes, so I made my way toward prospects and new views and this is how I write Happy Diabetes.
