Brand New Book ***** Print on Demand *****.Play by Play of Genesis brings the book of Genesis, from the King James version of the Bible, to life. It includes the complete KJV of Genesis, along with interesting commentary by two fictitious radio announcers. YouTube, dinosaurs, Bill Cosby, Indiana Jones, giants, sightings of Noah s Ark, Donny Osmond, the whereabouts of Cain today, interpretations and beliefs of various religions and many more intriguing facts bring the Bible to life today as John and Dave, two fictitious sports commentators, unfold the mysteries of the book of Genesis. From chapter one: .Now we re getting into some action with the animals--but what about the dinosaurs? Well, John, the Bible doesn t mention dinosaurs here, but later on in the Bible there are references to what are likely dinosaurs. The Hebrew words tanniyn, bahemowth, and livyathan, are likely all dinosaurs, and all mentioned in the Bible. So Dave, how did these scientific names come about? Good question, John. Well, in 1822, Mary Ann Mantell was the first person to discover a dinosaur bone, and her husband, Dr. Gideon Mantell, named the creature an Iguanodon. From this time forward, people named the dinosaurs from the bones that they discovered. This was many years after the Bible was written, as the Bible was written between approximately 1450 BC and 95 AD. This play by play commentary of Genesis includes the entire King James version of Genesis, with commentary as if by two sports commentators--Dave and John. The commentary will help bring the Bible to life, for adults as well as youth, to make reading the Bible more interesting and exciting.
