It is one of my personal favorite books. It is one of the most incredible ebooks I have ever read. You will not feel monotony at any moment of your own time (that's what catalogues are for relating to if you ask me).

Stuart Smith begins by describing how and why the media s use of solo videojournalists is growing, then delves into the controversy over whether one person can cover a story as well as two. He illuminates how, together, the downsizing of the media, downturn in the economy, and growth of video on the Web have led to the rise of the solo videojournalist model. *Going Solo* profiles TV stations and newspaper Web operations across the country that are using the model and offers helpful advice from VJs in the field. The book presents useful guidelines on how...
