University of California Press, United States, 1999. Hardback. Book Condition: New. New.. 228 x 154 mm. Language: English . Brand New Book. Her extensive informant interviewing allows much of this social history to be told by participants on all levels: parents, wives, nurses, doctors, government agency directors, health care providers, and many others. Gene insertion therapy now holds the promise of a cure for hemophilia in the near future. Scientific breakthroughs inevitably become intertwined with the industry and academic medical centers that govern the national health care system. And in that system, says...
