Several civilizations had a part in contributing to it. The ancient Egyptians were said to have invented the distillation machinery as a means to expel oils from natural plants such as cedar wood, cinnamon and clove, which were significant with their rituals. The Chinese also played a role by introducing the custom of using saturated aromatic oils to enhance the mood. The Greek civilization followed suit, developing oil, for the first time, from myrrh. The father of medicine Hippocrates claimed to have recommended aromatherapy for the well being of an individual. Here is A Preview Of What You ll Learned.
