Pensive Products, United States, 2008. Paperback. Book Condition: New. 216 x 140 mm. Language: English . Brand New Book ***** Print on Demand *****.As a parent/teacher your role is to help educate your children so they can be self sufficient in the world. A key to self-sufficiency is being a good decision maker and problem solver. Marc Zev, M.S. has relied on his 25-plus years of experience as an engineer, inventor and artist to create the KORE methodology for creating better problem solvers. KORE (Knowledge Organization Reasoning Enhancement) uses the concept of asking and answering questions to help organize thoughts and knowledge, as well as demonstrating how to better understand the basics of reasoning. The KORE method creates a team of you and your student to explore ideas and concepts together. Pensive Inquiries is a workbook to guide you through exercises that help you help your student demonstrate practical information, find out why they hold certain opinions, and encourage students (and you) to explore new ways to think about both common, and unique ideas.
