## THE EURO CRISIS: THE END OF UTOPIA (PAPERBACK)

Createspace Independent Publishing Platform, 2017. Paperback. Condition: New. Language: English . Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.

The economic crisis in Europe has been more serious than in other regions of the world and has had repercussions on international society. How is it possible that in the United States, where the crisis originated due to the mismanagement of the financial sector, the recovery is being much faster? The euro is the story of a stateless currency and, worse still, devoid of a political project. That is why they denounce the shortcomings of the European leaders who, in the storm, have reacted too little and too late. Europe has experienced almost a decade of stagnation, which in the case of some countries has become depression. The financial crisis of 2008 has been the first truly global crisis. While in Spain three financial, fiscal and economic crises were unleashed at the same time. And it had never before experienced such a long and deep recession. Democracy and the rule of law are in turn weakened by the growing concentration of power in the hands of the most privileged. It delves into the origins of modern growth. There are some worrying parallels with previous crises in Latin America or Japan, with high levels of indebtedness and responses based on contractive policies. On the other hand, Europe is the most advanced attempt to explicitly articulate strategies of supranational governance that to some extent foreshadow the hopes and difficulties of a global system. In general it is an optimistic book that bets on the exit of the crisis thanks to strategies of global or supranational governance. The crisis has made evident the lack of knowledge that economists have of the financial phenomenon, so defending macroprudential supervision can again give the impression that the...
