EDUCATIONAL PSYCHOLOGY (CLASSIC REPRINT)

Forgotten Books, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English Brand New Book ***** Print on Demand *****.Excerpt from Educational Psychology The course of study which this book presents is designed for students of pedagogy in colleges and normal schools. It presupposes an elementary knowledge of psychology. In the earlier chapters, on the growth of structure, and of sensory and motor capacities, a certain amount of child psychology has been included. Not every item so included will be found applicable to teaching, but the aim has been to give to the student a general survey of the phenomena of growth. In later chapters, as on memory and reasoning, the procedure of certain class experiments has been reported in some detail, because they are not published elsewhere, and it may seem desirable to the instructor to duplicate them in laboratory exercises. The last three chapters take up some of the concrete questions of teaching in three quite dissimilar school subjects. They are intended to illustrate the way in which psychological applications can be made. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books.
