Dark Lotus Books, 2016. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. DON T GO IN ALONE! The top-floor hurricane party went well--until the freakish storm forced the party-goers into the Cancer Research Institute s basement. Now their only escape is through a labyrinth of barely-lit tunnels that are rapidly flooding. Pretty biologist Carmen Niles leads the others through the maze, and falls into a deadly scheme to sabotage the Institute s experiments, involving a biker drug gang, psychics, stock fraud, and a horde of one-minute piranhas made by experimental computer genechips . Few heed Ed s warnings that this water is from the spirit world, and that their best protection will not be science, but charms and incantations. Brisk dialogue and a tight roller-coaster plot leaves the reader guessing until the last page. A plot worthy of the movies , say reviewers in this speculative sci-fi novel based on the ideas of the famous physicist Stephen Wolfram.
