Forgotten Books, 2017. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. Excerpt from Improving the Farm Environment for Wildlife Early every F armer delights in the lusty whistle of the bobwhite from a nearby post, the cheerful song of the meadow lark from the hay meadow, the rapid scolding calls of the killdeer as it swings about overhead, and the songs of many other birds, which he deems his friends and for which he invents picturesque names. Almost every farmer uses thoughtful care in protecting the homes of birds and mammals, often taking great pains to avoid destroying some tiny nest. No group of people more enjoys con tact with living things than do farmers, nor is there any group from whom an appeal for wildlife protection will receive heartier response. It is in the farmer s power to increase vastly the wealth of inter esting wild creatures that, by sharing his property, bring him color, song, and sport. Most farmers find in this mere companionship sufficient justification for conscious effort toward the increase of wild life, but they need not forget that tangible values also are involved. Many of the wild creatures, for instance, are definitely allied with him in his battle against insect enemies, and others furnish salable products. Since, therefore, there are economic as well as esthetic factors concerned, the deliberate encouragement of many forms of wildlife may be recognized as sound agricultural practice.
