By Schullery, Paul, Editor.

Stackpole. 1 Cloth(s), 2008. hard. Book Condition: New. Published in 1915, James Mottram's Fly Fishing, Some New Arts and Mysteries appeared at the height of great intellectual turmoil in the world of British fly fishing. Advocates of dry-fly fishing quarreled with their nymph-fishing counterparts over which type of fishing was not only more effective, but also more appropriate. Mottram stepped into this debate with writings that calmly considered the strengths, weaknesses, and prospects of all fly-fishing methods. Not only was Mottram scientifically trained, he was also a lively and inventive storyteller, and editor Paul Schullery praises his "enthusiastic voice, ceaseless curiosity, and intuitive sense of how things worked." 160.
