
Biology of Belief

By Bruce Lipton

SOUNDS TRUE INC, United States, 2006. CD-Audio. Condition: New. Language: English . Brand New. The next great advance in biology will change more than science textbooks--it will revolutionize the way you live your life. In the past, we ve been taught that living beings are like machines run by biochemicals and DNA, explains Dr. Bruce H. Lipton. What we now know is that our entire biology is shaped by the intelligence of each of our 50 trillion cells. And the single most important way to influence them is through the energy of our beliefs. On The Biology of Belief--an original author adaptation of Dr. Lipton s revolutionary book--this world-renowned cellular biologist explores the mysteries of: Course objectives: Summarize the history of biological theory and how genetic determination became a dominant theoryDiscuss Lipton s focus on the cell and how its functions relate to the human body as a wholeDescribe the functions and location of genes and proteins and the relationship between themIdentify the differences between the conscious and subconscious minds and how they function togetherExplain how environmental stimuli influence our current immune and thinking states, and shape the contents of our brainThe science of epigenetics--why biologists must look further than...
