The Practice of Computing Using Python, Global Edition (Mixed media product)

By William F. Punch, Richard Enbody

Pearson Education Limited, United Kingdom, 2016. Mixed media product. Condition: New. 3rd edition. Language: N/A. Brand New Book. For courses in Python Programming Introduces Python programming with an emphasis on problem-solving Now in its Third Edition, Practice of Computing Using Python continues to introduce both majors and non-majors taking CS1 courses to computational thinking using Python, with a strong emphasis on problem solving through computer science. The authors have chosen Python for its simplicity, powerful built-in data structures, advanced control constructs, and practicality. The text is built from the ground up for Python programming, rather than having been translated from Java or C++. Focusing on data manipulation and analysis as a theme, the text allows students to work on real problems using Internet-sourced or self-generated data sets that represent their own work and interests. The authors also emphasize program development and provide both majors and non-majors with a practical foundation in programming that will be useful in their respective fields. Among other changes, the Third Edition incorporates a switch to the Anaconda distribution, the SPYDER IDE, and a focus on debugging and GUIs. MyProgrammingLab (TM) not included. Students, if MyProgrammingLab is a recommended/mandatory component of the course, please ask your instructor for...
