LEARN TO PROGRAM WITH PYTHON (PAPERBACK)

aPress, United States, 2016. Paperback. Condition: New. 1st ed.. Language: English . Brand New Book. Get started in the world of software development: go from zero knowledge of programming to comfortably writing small to medium-sized programs in Python. Programming can be intimidating (especially when most books on software require you to know and use obscure command line instructions) but it doesn t have to be that way!In Learn to Program with Python, author Irv Kalb uses his in-person teaching experience to guide you through learning the Python computer programming language. He uses a conversational style to make you feel as though he is your personal tutor. All material is laid out in a thoughtful manner, each lesson building on previous ones. Many real-world analogies make the material easy to relate to. A wide variety of well-documented examples are provided. Along the way, you ll develop small programs on your own through a series of coding challenges that reinforce the content of the chapters.What You Will Learn Learn fundamental programming concepts including: variables and assignment statements, functions, conditionals, loops, lists, strings, file input and output, Internet data, and data structuresGet comfortable with the free IDLE Interactive Development Environment (IDE), which you will use to write and debug all your Python code - no need to use the command line!Build text-based programs, including a number of simple gamesLearn how to re-use code by building your own modulesUse Python s built-in data structures and packages to represent and make use of complex data from the InternetWho This Book Is ForThis book assumes that you have absolutely no prior knowledge about programming. There is no need to learn or use any obscure Unix commands. Students of any age who have had no exposure to programming and are interested in learning to do software development...
