This book may be worth purchasing. It typically fails to expense excessive. It is extremely difficult to leave it before concluding, once you begin to read the book.

Why you should consider this and other Aebersold piano voicing transcription books: Ever listen to a great jazz pianist and wonder what s he doing there? Now you ll know! Here is an opportunity to see real jazz piano voicings and comping over real songs in real live musical settings. These historic books contain note-for-note transcriptions, exactly as recorded, of the exciting piano accompaniment from the World Famous Aebersold play-along series. Not just for pianists, there are many ways for all musicians to use these wonderful musical tools: Pianists: First, listen closely to the pianist on the respective play-along recording (sold separately). Next, reading from the book, play along with him, imitating his style. Finally, turn him off (using the special stereo separation on all of our CDs) and play along by yourself with the bass and drums. With the techniques learned, you ll soon be improvising your own accompaniment! Non-Pianists: Horn players, arrangers and vocalists can use these books like dictionaries to look up favorite voicings they ve heard on a particular play-along track. Written clearly for two hands, even the most novice pianist can play many sections of these books.
