Effect of Sodium Flouride On The Color Stability Of
All Ceramic Restorations

LAP Lambert Academic Publishing. Paperback Condition: New. 104 pages. Dimensions: 8.7in x 5.9in x 0.2in. Color is very important in aesthetics, characterizing and personalizing a smile. An esthetic treatment has been one of the most required dental treatments, coming just after pain treatments. Color stability of restorative materials is one of the main concerns, particularly when it is in the esthetic zone and must be used for extended periods of time. Maintenance of color throughout the functional lifetime of restorations is...
