Prevention of Floods in the Valley of Stony Brook: A Report by a Commission (Classic Reprint) (Paperback)

By James B Francis

Forgotten Books, 2018. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. Excerpt from Prevention of Floods in the Valley of Stony Brook: A Report by a Commission As houses, yards, walks, avenues, and streets multiply, the surface of the ground becomes smoother and more impervious, so that less of the rain soaks into it. The street gutters and drains quickly carry into the brook rain-water which before had been absorbed by the earth or had been so delayed in its passage that water from areas near to the channel had time to flow off before that from more remote regions arrived. Besides these general causes certain specific changes have been made which have increased the tendency to flooding in the upper portion of the valley, and by storing the water there have diminished the rate at which it reaches the lower part of the brook. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. Find more at This book is a reproduction of an important historical work.
